## About the Chassis

This product is a face unit to be mounted on the chassis of the FA-UNIT-F14 E series (FA-UNIT-F14BE, FA-UNIT-F14ME).

This unit serves as a key-locking cover for the switches and drives, safeguarding the FA-UNIT-F14 E series from unauthorized operation.

## Features

Attaching a key-locking cover to the front of the chassis for the FA-UNIT-F14 E series prevents its switches and drives from unauthorized access and operation.

## Specification

| Item                    | Specification                            |
|-------------------------|--|
| External dimensions(mm) | 427(W) x 18(D) x 177(H) (No protrusions) |
| Weight                  | About 1.1kg                              |
| Acceptable chassis      | FA-UNIT-F14BE, FA-UNIT-F14ME             |

# Installing method

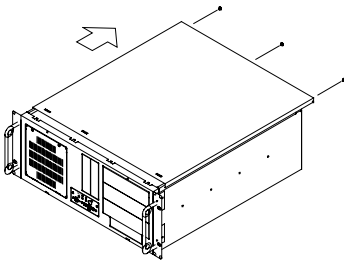

Attach this product to the chassis of the FA-UNIT-F14 E series as follows.

## Preparation

- (1) Turn off the power switch on the chassis.
- (2) Unplug the power cable of the system unit from the wall outlet.

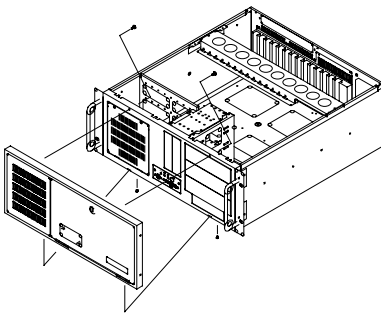

## Attaching the chassis to the FA-UNIT-F14 E series

- (1) Remove the screws fastening the top cover of chassis, then remove the cover. When loosening the screws, use the appropriate type of screwdriver that fits the screw head.

- (2) Fit the chassis in the front of it and fix it with four screws.

Use the screws with washer and Flat-head screws to fasten the top and bottom, respectively.

- (3) In the reverse order of (1), fix the top cover to its original position.
- (4) Adjust the rack-mount bracket on the system unit as required to fit the face front.

# External dimensions
